

OUR HISTORY

Our foundation is built on Excellence. HQ Nigeria Ltd was established in 2001 by Arch. Godson Ehiabhi Ogbemor, a seasoned architect with over 40 years of professional experience across Italy and Nigeria. From its earliest days, the company was built on a foundation of technical mastery, design-led thinking, and an unwavering commitment to delivering projects that exceed client expectations.

Over the past two decades, HQ Nigeria Ltd has grown from a specialized design and build firm into a comprehensive construction and engineering company, executing projects across residential, commercial, institutional, power, and infrastructure sectors. Our journey reflects not just growth in size, but in depth as we continue to take on more complex, high-value, and technically demanding projects every year.

OUR ITALIAN PARTNERSHIP

We are proud to say we have a strategic alliance with the Gimmegi Group, Rome in Italy. One of the most distinctive advantages HQ Nigeria Ltd brings to every project is our long-standing strategic partnership with the **Gimmegi Group**, a respected construction conglomerate based in Rome, Italy.

This alliance, established at the founding of HQ Nigeria Ltd in 2001, gives us access to:

- Advanced European construction technology and methodologies
- High-quality Italian building materials, plants, and equipment
- International project management expertise
- Expanded logistics and procurement capacity

The Gimmegi Group includes four specialist Italian companies: **GKG SRL** (design and build), **Mi.Geo Costruzioni SRL** (general contracting), **Impianti SAS** (electrical works), and **Elettronica Farfarelli** (electronic and security systems). This means when you work with HQ Nigeria Ltd, you have access to the full technical capability of an Italian-Nigerian construction powerhouse.

OUR SISTER COMPANY

HQ Nigeria Ltd partners closely with its independent sister company, **Calcitbond Products Ltd**, which specializes in producing and supplying transformed raw materials for high-end building products including parquet (hardwood flooring) crafted from premium Nigerian hardwood.

This partnership allows HQ Nigeria Ltd to offer clients locally sourced, premium-quality flooring and finishing materials on construction projects, a unique offering that combines Nigerian craftsmanship with international design sensibility.

OUR MISSION & VISION

Mission: To deliver high-quality, innovative technical products and services in the construction and related sectors using proven, compliant technical solutions on time, within budget, and to the highest professional standards.

Vision: To be the most trusted and technically capable construction company in Nigeria, recognized for our international partnerships, design excellence, and consistent delivery of landmark projects across the country.

OUR CORE VALUES

1. **Excellence** We set the bar high in design, in materials, in execution, and in client service. Every project we deliver reflects our commitment to getting it right the first time.
2. **Efficiency** Time is money, especially in construction. We plan rigorously, manage proactively, and execute with discipline to keep every project on schedule.
3. **Hard Work** There are no shortcuts at HQ Nigeria Ltd. Our team is built from professionals who take pride in their craft and bring their best to every site, every day.
4. **Uniqueness** We don't build cookie-cutter structures. Each project is approached with fresh eyes and design intelligence, producing results that are functional, beautiful, and distinctly yours.
5. **Professionalism** From the first consultation to project handover, you will always experience clear communication, honest advice, and the highest ethical standards from our team.

WE WOULD LOVE TO ASK YOU!
